Tailored Roadmap (Aug 2026 – Mar 2027)

August

■ Set up project management (Notion/Trello).

■ Continue RAG chatbot: ingestion, chunking, embeddings.

■ Learn Qdrant or FAISS deeply.

■ Push code weekly to GitHub.

■ Start Goethe B2.1.

September

■ Finish retrieval pipeline.

■ Add authentication and chat history.

■ Dockerize the app.

■ Deploy MVP.

■ Research first 10 German universities.

October

■ Build Computer Vision project (YOLO or classification).

■ Write technical blog for RAG.

■ Create portfolio website.

■ Refine CV.

November

■ Complete Goethe exam.

■ Polish RAG and CV projects.

■ Start AI Agent project (LangGraph/tool calling/MCP).

■ Request recommendation letters.

December

■ Finish AI Agent.

■ Deploy it.

■ Prepare Statement of Purpose.

■ Collect transcripts, diploma, translations.

January

■ Improve GitHub READMEs.

■ Mock interviews.

■ Research remaining universities.

■ Tailor SOP for target schools.

February

■ Final review of documents.

■ Check Uni-Assist deadlines.

■ Submit early applications where possible.

March

■ Submit remaining applications.

■ Prepare visa checklist.

■ Continue improving projects while awaiting decisions.
